## THE REIGNING CRAZE

Radio Fans to Have Department in The Crittenden Press This Week

Radio has taken the country literally by the ears. Nothing like it ever has been known in the history of the world. Receiving sets are being placed in city homes, farm houses, business offices, theatres, on moving trains, even in limousines, to catch winged words and music drifting from the air, at the rate of a hundred thousand a month.

The Crittenden Press always on the lookout for the interest of its large circle of readers, begins next week a radio department which will contain brief articles covering something of interest of the history of radio, the mechanics of radio and the broadcasting and utilization of radio.

Here is an opportunity for the fans of The Crittenden Press to keep up to date and obtain a good deal of practical information in the construction and operation of radio sets.

## PRINCETON PRESBYTERY

The Princeton Presbyterian of the Cumberland Presbyterian Church met at the C. P. Church here Thursday morning. The opening sermon was preached by Rev. F. A. Grady, of Sacramento. Many out of town visitors and delegates from the various churches were in attendance.

Elder J. B. Hall of Hopkinsville, was chosen Moderator and Rev. F. L. McDowell, of this city, Clerk.

The meeting closed Thursday morning.

## GO TO SUNDAY-SCHOOL DAY

Next Sunday, May 7, has been set apart as "Go to Sunday School Day." The teachers of Kentucky have issued a proclamation inviting every one to attend Sunday school on that day. It was in Kentucky that the day originated and this is the ninth anniversary. Whether we are a regular attendant or not we should as good citizens, make a special effort to go to Sunday school next Sunday.

## TO THE CITIZENS OF MARION

We want to take this means of thanking you for your hearty cooperation and assistance given us while building the home in your city and for the appreciation shown and words of encouragement given.

We would have liked to have thanked each of you in person.

Sincerely,  
CHAS. R. KOHRT, Director, Bureau of Franchises

## DEAN BROWN

Miss Velma Dean and Mr. Bryan Brown were united in marriage on Sunday afternoon, April 30, at the residence of the officiating minister, Rev. T. F. Baugh, of the Piney Fork center. Miss Glenn Hill and Mr. Emmett Stewart were the attendants.

The bride is the handsome and accomplished daughter of Mr. and Mrs. L. F. Dean, of Deanwood, and the groom is the son of Mr. and Mrs. Jas. Brown, of the Shady Grove center. Their many friends extend hearty congratulations.

Mr. J. B. Hall, of Hawton, who has been the guest of his parents, Mr. and Mrs. Henry Paris, returned home Tuesday.

Mrs. H. F. Brown and sister, Mrs. Vera Young of Arkansas are visiting their parents, Mr. and Mrs. J. B. Young at Marion.

## MARION VISITED BY ANOTHER FIRE

The J. N. Woods building on the west side of Main Street, owned by Miss Mary Cameron, was burned to the ground at an early hour Monday. Fire was discovered at 1:30 A. M. and had attained such headway that all efforts to extinguish the flames were unavailing.

Besides the residence portion of the house, the building contained the office of the Postal Telegraph Company, operated by Miss Mary Cameron, and the Guy Givens restaurant.

T. J. Wring, who was the first to discover the fire, reports that when he reached the scene of the fire the blaze was coming through the roof of the residence part of the building. The entire contents of the rooms, the restaurant and the telegraph office were consumed.

The building had an estimated value of \$15,000 which was in part covered by insurance.

Guy Givens' loss in stock and fixtures is estimated at \$1,000, part covered by insurance.

The bank building, owned by C. W. Grady, was considerably damaged by the fire. A number of windows were broken and the brick wall next to the fire was damaged. An estimate of the loss could not be obtained. The loss was fully covered by insurance. The first floor is occupied by Grady's store and the second floor by the Home Telephone Co. Manager J. Frank Houn estimates the loss to the telephone company at \$100.

The Edgar building across the street, occupied by Morris, Son & Mitchell was damaged by the breaking of the plate glass front to the estimated amount of \$250. This loss is covered by insurance.

The J. H. Hume building, occupied by T. H. Cochran & Co. was damaged by the breaking of plate glass front and several windows in the second story. Estimated loss \$100, fully covered by insurance.

## PEA LODGED IN EAR

Fourier Truitt, the 11-year-old son of Mr. and Mrs. Lacy Truitt, of the Marion station, while threshing out some stock peas Tuesday got a pea lodged in his left ear and all efforts of the family to extricate proved unavailing. His grandmother, Mrs. H. L. Truitt, left with him Wednesday for Evansville to consult Dr. Field.

## INJURED AT MINE

Mr. Evans Ingram, 31 years old, a miner at the Big Four Mine, was seriously injured Monday while working in the mine. While a tub of spar was being hoisted from a depth of 200 feet, Mr. Ingram got two fingers caught between the timber and the tub, severely crushing them. Dr. T. A. Francis dressed the wounds and amputated one of the injured fingers.

## VIRGIE PARIS DIES

Miss Virgie Paris, 30 years old, daughter of Mrs. C. H. Paris, of Princeton, died at Hopkinsville Saturday April 29. The remains were brought here for burial Sunday at Mapleview Cemetery. Funeral services were conducted by Rev. Homer C. Paris, pastor of the Second Baptist church.

## CARD OF THANKS

We desire to express our sincere thanks to our friends and neighbors for the kind and sympathetic shows to us during the illness and subsequent death of our beloved daughter and sister, Virgie Paris. May God's blessings be with you all.

Mrs. Ellen Paris and family

## REPORT OF ILLINOIS CENTRAL AGRICULTURAL MEETING

(Continued from last week)

### Hairing

Mr. Humphrey Agricultural Agent for the I. C. made several talks on haying which were well appreciated by farmers who are dairymen in this county. The dairy cow gives the farmer a cash income every few days or as often as he ships his cream. This is a big item, especially during such strenuous times when cash seems to be scarce. In this way money invested in a dairy cow starts paying dividends at once and can be reinvested to enlarge the business. Bankers throughout the country for this reason recognize the value of good dairy cows to the farmer and if some banks will loan money to farmers wishing to purchase dairy cows, when they would release to extend credit for any other purpose.

Not only is there a steady cash income from the dairy cow but there are other sources of income from the cow besides milk, cream, and butter though not as noticeable but nevertheless as important. Each year the cow gives birth to a calf which is a source of income. The production of fertilizer in the form of barnyard manure is another valuable source of income. The farms in Kentucky are gradually being worn out because of the continuous cropping.

The dairyman however, is not to put back a large amount of fertility in the manure from the cows which should be carefully saved and put back on the land. In the production of dairy products he therefore takes less fertility away from the farm for the value of the product produced. That is to say the worth of dairy products take less fertility from the farm than \$10 worth of other farm products with the possible exception of poultry. The farmer should regard his farm as a storehouse of plant food having a money value and it is just as wrong for him to continually take away from this store house of plant food without replenishing it as it would be for a man to continually check against a bank account without putting in any deposits.

To get best results from dairy cows it is necessary to have good cows. The farmer who is spending his time and knowledge feeding scrub cows is in a pitiful state. He is keeping the cows whereas the cow should be keeping him. A good dairy cow should produce a pound of butter a day. Cows vary a great deal in their ability to produce milk and cream. On a great many farms one or two good cows would produce as much as the five or six scrub cows that are observed hunched up in the barn lot. The Babcock test and the scales are the only sure means of knowing the productive ability of your cows. Good cows are hard to buy. Purchase only from men whose reputation as breeders of good dairy cows are well known. By the use of a pure bred sire comparatively poor heifers may be built up in from six to 12 years by saving only the best heifers.

But the man who pays attention only to the selection of good individuals cannot succeed in the dairy business without a knowledge of proper care and feeding. Too many farmers feed cows on corn products alone. Corn meal, starchy corn fodder with perhaps some timothy or red top hay are fed in too great a abundance. Corn products furnish only one part of the ration and should be balanced with legume hays such as clovers, alfalfa, soy beans or cow peas. Corn meal and soy bean meal together with corn silage and alfalfa or clover make a well balanced ration.

The dairyman must plan to grow legume crops. If his land is poor and won't grow these crops it will be necessary to apply limestone to the land to sweeten it. The plant food is thus made available for legume crops and all the necessary feeds for the cows can thus be grown on the farm.

Mr. Humphrey advised having the calves come in the fall. The cow gives her greatest supply of milk just after the calf is born. With fall calves the large production of milk brings the best prices. When turned out on pasture in the spring a sort of second freshening period occurs and when flies are bad and pastures dry up in August the cows may be dried up in preparation for fall calf again.

The farms around Marion are well

## MINISTERS AND MEMBERS MEETING

The Ministers and Members meeting of the Ohio River Association of Baptists met at the First Baptist Church Friday, Saturday and Sunday, April 28, 29, and 30. The Association is composed of churches in Crittenden, Lexington, Lyon and Caldwell counties, 40 churches in all. A number of visiting ministers, and delegates were present. The services were well attended.

### MCCOY-MCGEE

Prof. J. H. McCoy and Miss Nellie McGee were united in marriage on Saturday April 16 at Elizabethtown, Miss. The ceremony was performed in the parlors of the Acacia minister, Rev. G. H. McGee, of the Methodist church of that city.

The bride is the handsome daughter of Mr. G. H. McGee of Elizabethtown and is a typical southern girl. The groom is one of the best known teachers of the public schools of this county and an all round good citizen. Mr. and Mrs. McCoy will make their home in this county.

### SOME GOOD PIGS

Mr. H. E. Sisco, of the Sisco Chapel section, delivered eight hogs here Friday. They were six months old and averaged 192-1-2 pounds. The price received was 9-1-2 cents a pound, or \$148.25 for the eight pigs.

## LOCAL NEWS

Rev. G. P. Dillon was called to Madisonville Tuesday to conduct a funeral service.

Rev. John A. Truitt, of Mayfield, who preached the installation sermon at the Main Street Presbyterian church Sunday evening, left for home Monday.

Mrs. F. H. Paris and niece, Luella French, of Princeton, who attended the funeral service, of Mrs. Paris' daughter, Virgie, returned to their home Tuesday.

Rev. F. Duke Stone who is attending the Baptist Seminary at Louisville, and Mrs. Stone are spending a few weeks vacation with Mr. Stone's mother, Mrs. M. M. Stone.

Decoration Day Services will be held at Maple View Cemetery, Marion, Ky., Sunday afternoon at 2:30. Lot owners are requested to see the secretary and pay for the care of their lots on or before that date. \$1.00 for occupied lots and \$1.00 for vacant lots. NELLE WALKER, Secretary.

Maple View Cemetery shows unusual care for the past year and this has been brought about by the cooperation of so many of the lot owners who have cheerfully paid the committee for the upkeep of their lots and also the general work in the cemetery. More lots were cared for this past year than during any one year in the history of the Association. There are some lots there that have never been cared for by the owner nor has the Cemetery Association had the privilege of caring for it. If these are yours, will you not cooperate this year, and do your part in keeping up this work?

adapted to the dairy business. It is hoped that more farmers will start to milk cows. The Illinois Central Railroad is glad to cooperate in getting more dairymen in this section as anything which increases the prosperity of the farmers increases the business of the railroad running this that section. We regard this weeks meetings as one of the most helpful meetings of the kind ever held in Crittenden county and we expect to reap the benefits in increased interest and production of the poultry and dairy industry.

We can congratulate ourselves as farmers of Crittenden county that we live on the Illinois Central, a railroad which takes such an active interest in helping the farmers along its line. A railroad which is always willing and waiting to co-operate with the farmers at any time and we are more than appreciative for those Agricultural meetings of this past week.

## TWO WRONGS NEVER MAKE ONE RIGHT

It is unfortunate for one member of a community to be in a wrong attitude toward another member. That prepares the way for wrong hurtful action. No person needs to think for a minute that he is licensed to do a hurtful thing to another because the other party does him a wrong. There is an inevitable eternal law whose penalty will certainly be executed on the transgressor. There is no way to escape for the transgressor but to rectify the wrong. The God of the universe did not make the law, it exists because He does. You may try to ease your conscience by saying you don't believe it, but it is here just the same.

The great Lover of Men and Teacher of all teachers, Jesus, so recorded it. Instead of maligning men in their absence as to their motives and purposes, or seek to get vengeance because you get advantage of a man, you better seek to help him.

The most hurtful thing in the electric light question to this city is not the putting out of the lights, and that is a calamity. The inconvenience and the extra expense, etc., can not be tabulated, but it is the wrong attitude that individuals have toward each other. You may condemn an act but it is not your province to condemn the actor.

Whether the City Council, Mr. Jenkins, or Judge H. L. Moore, or all of them, have acted in a way that has brought about these conditions is for the patrons to decide as they may elect.

It is not the province of The Crittenden Press to say but its position toward these men must be that we are citizens of one commonwealth and must and will hold not only a friendly but a helpful relation, and work for the good of the City.

The Press does not understand why the lights should not be furnished to the city.

## A FAIR PROPOSITION

At the Council meeting Monday evening May 1, S. M. Jenkins expressed a willingness to furnish city street lights, also residence and business lights at same rates named in the contract under which lights had been furnished since January 1, 1922 and agreed to clear one street at a time as soon as H. L. Moore had his material on the ground ready to begin work on said street and to connect to each street as soon as wired and furnish lights to those living on said streets and to clear a second street at once and so on until the entire city was wired, provided of course, the equipment of H. L. Moore would harmonize with that now here in primary and secondary current as to phase and cycle, and if otherwise no connections could be made but wiring each street could be done as proposed.

When the new plant was ready for operation, Mr. Jenkins agreed to cease operations.

This proposition was turned down.

## WOMAN'S PRESBYTERIAL

The Woman's Presbyterial of the Presbytery of Princeton met in Marion, Wednesday night of last week. Mrs. J. Q. A. McDowell from Danville was present and made an able address the first night. She also addressed the Presbyterial at other times. They had fine reports and many other interesting addresses.

Mr. Virgil V. Moore, of Madisonville, addressed the V. Y. M. Bible Class at the Methodist church Sunday morning.

## Farm Bureau Notes

### Clover Bloat

Clover bloat will be claiming the usual number of victims among Kentucky cattle in the near future if special care is not taken. The trouble is most prevalent during the spring of the year when alfalfa and clover, especially the red and white varieties are in bloom. Farmers in some sections of the state already have reported the appearance of the bloat in their herds.

Preventative measures are said to be important in controlling the trouble. It has been recommended that farmers turn their animals on new pastures gradually and that they give them a full feed of hay before turning them into pastures after they have been confined and fed dry feed all winter. It also is well to have some hay in a pasture containing white or red clover since the animals instinctively eat hay and relieve themselves when they begin to bloat.

In cases of acute bloating, it is recommended that the sick animals be given one quart of oil and one half percent solution of formalin followed by placing a wooden block in the animal's mouth and gentle exercise if the animal can be gotten up. Formalin, which can be purchased at any drug store, can be made into a proper solution for drenching by adding one half ounce of it to one quart of water.

After the animal has been relieved, it is well to drench it with one pound of epsom salts and one half ounce of ground ginger in a pint of lukewarm water.

Plan on selling your chickens at the Farm Bureau car Friday and Saturday, May 6, and 6th 28 1-2 cents for hens paid at the car. The Farm Bureau put you this price. Stick by them.

### Chapel Hill Community Club

The club will meet the regular meeting night the second Wednesday, May 10 at the school with the following program:

The Advantages of Being a Farmer. H. D. Hill, W. M. Higham. Profits from hogs for a Dairy Farmer. J. Alex Hill, Albert Walker. Raising Poultry for Market. Mrs. Leslie Walker, Mrs. H. H. Hill. Recitation. K. Clement. Talk by County Agent.

## MARION WINS OVER GREENVILLE

The debating team of the M. H. S. won over Greenville High School Saturday night at Greenville. Miss Virginia Hoss won the Declamatory Contest.

The subject for the debate was "Resolved that the United States Government should pay each ex-serviceman a bonus not exceeding \$200." Greenville took the affirmative and Marion the negative. Those who represented Marion were Freda Helt, Calvert Small and Chas. Reed.

The hospitality shown to Marion's representatives will not be soon forgotten.

## ASSISTANT COUNTY AGENT

Mr. W. H. Rochester has been made Assistant County Agent of McLean county and left Tuesday to take up his work in that capacity. Mr. Rochester is the son of Mr. W. N. Rochester of this city and is well qualified for the office. The appointment carries with it a good salary and his friends here congratulate him.

Mr. J. H. Frank of Hartsville, after an absence of ten years, is spending a few days with his friends in this city and the county.

## FREDONIA

The town was settled from 1830 to 1834. Harvey Higham came here and bought the land and began to start a town. One night the citizens gathered to give the town a name. Mr. Higham had a daughter born two days before and he suggested that they name the town for his daughter, Fredonia.

Among the first dealers were Judge Kirkpatrick, H. Brooks, H. M. Armstrong and Mr. Witherspoon. These men were in business from 1833 to 1840. Then the town began to grow a little, from 1850 to 1860 the dealers were as follows: C. N. Hyrd, T. J. Greer, J. T. Wyatt and Crider and Wilson. The blacksmith shop was just on this side of J. T. Crider's house. It was conducted by D. Hagwell, Jim Robinson and Jim Clark.

The first school house was about one hundred yards from Jim Ray's house and the first school was taught by G. Rice. Afterwards this house burned and a church opposite the old Mill place was used. The first pastors were Rev. Hadden, Rev. Hawthorn, W. C. Love and Geo. Perkins. The Masonic lodge building was built in 1882. Miss Liza Norris and Lydia Pierce conducted a female academy in the Masonic building for two years. Then J. C. Mayes came here and created a Female Academy and taught for two years.

The first mill that was in Fredonia was where Mr. Patterson's stable now stands. It was run by Sam Ballard for about three years. Then J. W. Bluff built a five-story flour mill on the Dycusburg road and ran it about five years. It was then moved to Providence and is in operation there now.

About this time more people began to go into business and among these were J. H. Hays, J. T. and Jasper Wyatt, S. H. Allman, Hays Byrd, C. N. Hyrd and A. G. Farby. The doctors in the town were J. M. Johnson, Felix Johnson, W. S. Johnson, T. H. Johnson and W. D. Kirkpatrick, these doctors practiced from about 1850 to 1870.

Jonathan Hays, Wes Hays and Tom Hays had a cabinet shop and they made everything from a cradle to a coffin.

The first post-office was run by H. M. Witherspoon. It was kept in nearly every house in town. They kept the mail in a wooden shoe box. There were no stamps and when anyone got a letter they would have to pay a quarter to get it.

The oldest house in Fredonia is the old Hyrd property where Jim Patterson now lives. It was built by Watson Rice.

## WOMEN OF MIDDLE AGE

A Trying Period Through Which Every Woman Must Pass

Practical Suggestions Given by the Women Whose Letters Follow

Phila., Pa.—"When I was going through the Change of Life I was weak, nervous, dizzy and had headaches. I was troubled in this way for two years and was hardly able to do my work. My friends advised me to take Lydia E. Pinkham's Vegetable Compound, and I am very sorry that I did not take it sooner. But I have got good results from it and am now able to do my housework most of the time. I recommend your medicine to those who have similar troubles. I do not like publicity, but if it will help other women I will be glad for you to use my letter."—Mrs. FANNIE ROSENSTEIN, 822 N. Holly St., Phila., Pa.

Detroit, Michigan—"During the Change of Life I had a lot of stomach trouble and was bothered a great deal with hot flashes. Sometimes I was not able to do any work at all. I read about Lydia E. Pinkham's Vegetable Compound in your little book and took it with very good results. I keep house and am able now to do all my own work. I recommend your medicine and am willing for you to publish my testimonial."—Mrs. J. S. LIVERMORE, 2651 Junction Avenue, Detroit, Mich.

Lydia E. Pinkham's Private Text-Book upon "Allments Peculiar to Women" will be sent you free upon request. Write to the Lydia E. Pinkham Medicine Co., Lynn, Massachusetts. This book contains valuable information.

The critical time of a woman's life usually comes between the years of 45 and 50, and is often beset with annoying symptoms such as nervousness, irritability, melancholia. Heat flashes or waves of heat appear to pass over the body, cause the face to be very red and often bring on headache, dizziness and a sense of suffocation.

Another annoying symptom which comes at this time is an inability to recall names, dates or other small facts. This is liable to make a woman lose confidence in herself. She becomes nervous, avoids meeting strangers and dreads to go out alone.

Lydia E. Pinkham's Vegetable Compound is especially adapted to help women at this time. It exercises a restorative influence, tones and strengthens the system, and assists nature in the long weeks and months covering this period. Let it help carry you through this time of life. It is a splendid medicine for the middle-aged woman. It is prepared from medicinal roots and herbs and contains no harmful drugs or narcotics.

## THE AMERICAN LEGION

(Copy for This Department Supplied by The American Legion News Service)

### OHLLINGER A VALUABLE MAN

Former Intelligence Officer Frustrated Many Anti-American Activities During War.

The name of Gustav Ohllinger might have meant something to the Kaiser during the war, and it did. The German activities that were rampant during the period known as Captain Gustav Ohllinger of the Intelligence department of the United States. He broke up their meetings and many of these activities ceased to operate by reason of his having so much of their propaganda and plans.

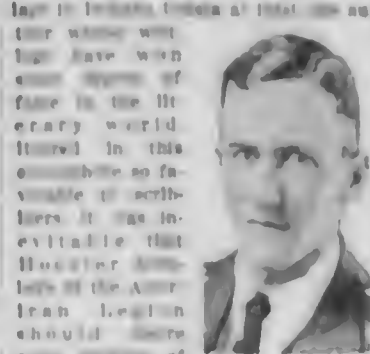

His home is in Toledo, O., where the American Legion has as its commander this same Gustav Ohllinger. The Legion convention was in full blast in the same city when a wealthy Toledoan kept in and announced that he would pay the entire expense of the convention if they would draw their hands from the part of the Toledo business. That was the Legionnaire's cue. Ohllinger's name was never mentioned from a box seat, but it was good enough to cause a hurried exit on the part of the Toledo business. That was the Legionnaire's cue. Ohllinger's name was never mentioned from a box seat, but it was good enough to cause a hurried exit on the part of the Toledo business.

One of German propaganda is China, a close friend of the late Theodore Roosevelt, would travel and found on leaving China a letter addressed to the American Legion. That was the Legionnaire's cue. Ohllinger's name was never mentioned from a box seat, but it was good enough to cause a hurried exit on the part of the Toledo business.

### LEGION PAPER'S BOSS SCRIBE

Philip Stepp Formerly Editor of Overseas Publication, at Head of Hooper Publication.

It is not that every town and village in America at this time as the Legionnaire's cue. Ohllinger's name was never mentioned from a box seat, but it was good enough to cause a hurried exit on the part of the Toledo business.

The reason for the Legionnaire's cue. Ohllinger's name was never mentioned from a box seat, but it was good enough to cause a hurried exit on the part of the Toledo business.

Philip Stepp of Greenway for many years of the Legionnaire's cue. Ohllinger's name was never mentioned from a box seat, but it was good enough to cause a hurried exit on the part of the Toledo business.

### MANY "OUT OF COMMISSION"

Nearly Dozen Destroyers Which Were Coasted Gold Star on Black, Are Doomed.

A typewriter man at last defeated nearly a dozen of the destroyers which for four years engaged through the North sea and in the submarine zone of the Atlantic and gained notable victories over German submarines. The coveted gold stars were on the decks, where all might see and know that a German ship had met death, were awarded the Parker, children, Cummings, Porter, Davis and many others which have been ordered "out of commission" by the Navy department.

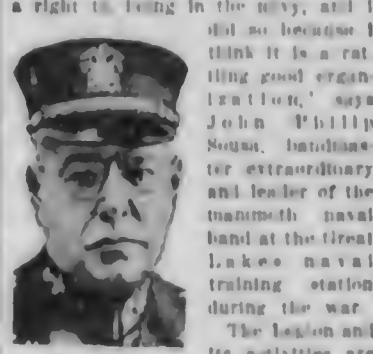

"Out of commission" means nothing more or less than that the fast growing navy junk pile grows higher. Never again, probably, will these greynounds of the deep circle around a fleet of transports suddenly dive off to one side, sweep back again drop a depth bomb, and then watch the oil come to surface that shows another German submarine has gone down to visit Davy Jones.

The thrills of the deeds of these "star" destroyers are a bit overshadowed by the news that the Shaw is slated for the scrap heap. She was covering the huge British transport Aquitania when the rubber jammed and the giant ship ran her down. The Jacob Jones also brings back and menaces. She is named for the first ill-fated torpedo boat of that name which was sunk while battling the submarine zone.

### WHY SOUSA JOINED LEGION

The Noted Bandmaster Says He Thinks It Is a Rattling Good Organization.

"I joined the Legion because I had a right to being in the navy, and I did so because I think it is a rattling good organization," says John Philip Sousa, bandmaster extraordinary and leader of the mammoth naval band at the Great Lakes naval training station during the war.

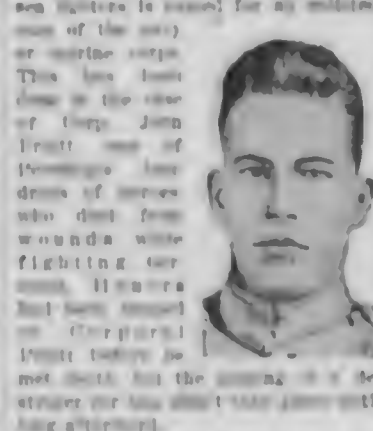

The Legion and its activities are being spread into all parts of the world by the band leader's men. Thirty-two of the bandmaster's men make up the Sousa organization are ex-service men, and nearly all are affiliated with the Legion. They come from every part of the country and now serve in every branch of this country's military organization during the war.

When Sousa took hold of the Great Lakes band it was a group of soldiers whose right to play under him could have come only with their enlisting with the crowd that "think you over." What he did with this group of musical talent is known to the country over. What they learned under Sousa couldn't have been learned anywhere else, and the finer points of the music art are being shown to the hundreds of Legion posts whose personnel is made up of one or more of the boys who made up the largest service band of the navy brought into being during the war.

### NAME DESTROYER FOR PRUITT

Highest Honors Paid One of Pershing's Men Who Went to Death in War.

It is within the name of the Legionnaire's cue. Ohllinger's name was never mentioned from a box seat, but it was good enough to cause a hurried exit on the part of the Toledo business.

Mr. and Mrs. George Pruitt of Phoenix, Ariz., have just received from the Legion a citation and the Legion war cross. George Pruitt, in recognition of their sons' valor during four years ago, the citation that of young Pruitt's distinguished battle against two machine gun crews, capturing both, saving two of the crew and taking 50 prisoners.

Pruitt was and four-time tank commander for the first time. Pruitt volunteered for service with the machine gun than these words after war was declared. He was in France in January, 1918, and served as a "tank" leader with his crew. His body was brought back to the country and buried with all the honors that are a Legion in the National cemetery at Arlington.

### LEGION HAS CEMETERY PLOT

Reason (Wis.) Organization Will See That No Ex-Service Men Sleep in Potter's Field.

The American Legion at Racine, Wis., has taken over a part of one of the city's cemeteries and will build it in order that no one of the ex-service men who did his share in the army or navy during the World war need sleep in a potter's field. When the Legion's work on its acquired plot is complete, Racine will have a miniature Arlington. The plot is circular and will be fittingly arranged in order that it may look as much as possible like the National cemetery at Arlington.

The Legion men have authorized the expenditure of \$2,500.50 for the land. A steel band, which will fly the Stars and Stripes is one of the first things the organization will buy. Already because its ex-service men are buried in two of its cemeteries. An effort is to be made to have as many of these as possible transferred to the new plot. Plans for the burial of more than 200 veterans is being allowed for.

The next session of the Wisconsin legislature will be asked to raise the amount which the state allows for the burial of a war veteran. At present this amount is but \$50, but it is hoped that this will be increased to \$75 or \$100.

### Carrying On With the American Legion

It rained \$500 for the Legion in Tor onto recently. Insurance was taken out against more than 10,000 of an inch on a celebration day. The precipitation was 14.100.

Strange doors will lead into the \$250,000 memorial hall to be erected at Centennial Wash., in honor of the four American Legion men who were killed by I. W. W. members in that city.

The conference, however, despite its name, concerned the relations between East and West, and was characterized by the fact that the leading participants in the opening ceremony in Vienna refused to take a formal position on the Cold War. Germany, and even its allies, said the central theme here was peace and disarmament, the opposite of what David George offered the West. William said that the principal reason was that Moscow, Moscow, Moscow. He also hoped it would be the last time anyone would use the subject for Soviet propaganda, and he said that the conference would not be harmed from its beginning to its end by its failure to focus on the East side of the conference. This position was supported by representatives from the United States, and by the fact that the 1-2 private conversations that have been going on to his home with arrangements would be made with the aim that would preclude the influence of the smaller powers. The Russians also insisted that Germany must be in all conferences because there were many questions still at issue between Germany and Russia. On Thursday, however, David George and the Germans had agreed not to participate in discussions of Russian affairs.

**B**ATHURST of France held with liquid courage that the Russian ultimatum revealed relations of the treaty of Versailles and that the Germans must be satisfied. He was backed up to the hilt by his government. Premier Briand was sent to the French and—here in the alliance—complain that the French are to liquidate the energetic measures to be taken and penalties applied to Germany if the French treaty were not abandoned. The path of what the Germans refuse might decide in the matter. He held that the execution of the treaty

At the November panel, I presented three papers. "Habit, the American and the European Press 1901-1910: The American Case" and "After Secondary Sources in the Journal: Continued Case Studies in the Journal Based on a Comparative Analysis of the Two Countries" covering the period 1901-1910. In the first, I argued that the American press was the first to commercialize the content of journal articles, and that this helped to create the first American literary and literary-critical writing, i.e. fiction, and thus to form the first audience.

After things to eat and drink, Thomas's brief (and the Chinese translation) quickly and graciously ended, and the audience offered a round of champagne to mark the end of the evening's work. Finally, some more information was provided. A review of the *Journal* I edited was presented and some more facts about the journal were given, such as the number of reviewers, the changes, and the review process in Germany. The French also presented literature in German. It was 10:30 p.m. by then, so most of the crowd departed early.

The conference, as I said, was the most informal, because in the past people had often to spend almost a lifetime to get used to each other and to work out the differences between those from east and the west countries.

CHATHAM PAT KILLIAM of Michigan and his cohort of "little navy" men went down to defeat in the house of representatives last week and if the counts show as I have expected to do the United States will be able to maintain a navy of respectable proportions. In committee of the whole the house by a vote of 17 to 133 adopted the amendment to the committee bill which provided for

THE gold of those who believe in substantial personal debt is not returned on the same day. In this the American people are truly better off. National Commissioner McNulty emphatically holds the words "no return" to be the motto of the Federal Government in substance. He knows only what is possible for only 11,000,000 persons here. He does.

The American League responded to such as the President, the secretary of war, and General Pershing in their request of the army's participation for the National Guard corps that received reserve officers from his corps and of the country from the change as recommended by the War Department and also support

**See Wealth in Venetia**

Among the countries where the production of various kinds of Malvasia has become a source of notable profits, it is asserted that once more, under the aegis of the export for foreign markets growing on Malvasia, it occupies ranks ahead of other countries. In several subject the focus is to be observed, although for very little attention has been paid to the subject. In the region around Trieste, on the Gulf coast, the vine plant is known as throughout the long future. It is in a climbing vine and from the leaves and stems are obtained for the production of two kinds of Malvasia wines.

**First Aid**  
I panicked, thinking that I'd been "ghosted." "You? But I'm going to see you on Tuesday!" I wrote.

"You saw that it was impossible for me to see you on Tuesday, so the world is the same, except that on Tuesday."

"Now then," the officer said to both, "seems to me to be a case where there is nothing very much the matter except that your tastes are different. You two are much older than your wife. It is a case of May married to December."

A slight pause, and then Eva, the wife, was found to remark in a three-syllable voice:

"I feel really don't know what you mean by not seeing that I'm married to December. If it goes to tell that way, it seems right to be a case of later. I've married to an May as that's the best of it."

# Mr. Jenkins Took a Cracked Club To Tame Lions

The exhibition ended rather badly. It very nearly was a big day for the lions and a sad day for Mr. Jenkins—all for want of proper care in getting ready.

Many a man who has business to do and a living to make and a job to fill is as careless how he feeds his body as Mr. Jenkins was in picking out a club.

Some foods are too heavy, some are too starchy; many lack necessary elements and so starve the body—and many load the system down with fermentation and auto-intoxication.

Grape-Nuts helps build health and strength. It contains the full richness of wheat and malted barley, including the vital mineral elements, without which the body cannot be fully sustained. Grape-

Nuts digests quickly and wholesomely. Served with cream or good milk, it is a complete food—crisp and delicious.

Grape-Nuts is just the food for those who care to meet life's situations well prepared in health. Order Grape-Nuts from your grocer today. Try it with cream or milk for breakfast or lunch, or made into a delightful pudding for dinner.
